

Risk assessment for : Charter Vets (EX36 4EJ)

Risk assessment name	Covid Secure Site Risk Assessment for Torch Mullacott Veterinary Hospital	Assessment type	 General
Assessor name	Fiona Tyson	Affected site(s)	Charter Vets (EX36 4EJ)
Assessment date	08/01/2021	Review period	Custom
Approved by	Heather Wraith	Review date	28/02/2021
Approved date	08/01/2021	Reference	Torch Mullacott

Description

This Risk Assessment is for Torch Mullacott Veterinary Hospital.

Due to the emerging evidence and changes to Government Guidance, it is vital that the most up to date guidance is referred to. This can be found at: <https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19>

This risk assessment sets out the controls that will be in place for the workplace and work activities in order to reduce the risk of the transmission of the Covid-19 virus and demonstrate that the organisation is Covid-Secure.

Overall risk rating : 20 (High)

Hazard	Who could be harmed and how?	Existing controls	Risk rating (L x S)
1. Cleaning To Reduce Transmission Of Covid-19 - Risk of exposure to Covid-19 whilst cleaning work areas.	All staff Cleaners How? Cleaning areas where Covid-19 may be present may lead to exposure to the virus. However- the cleaning of all areas correctly will reduce the risk of transmission overall.	 Appropriate Disinfectant Products Used In Line With COSHH Assessment.  Correct Guidance Will Be Followed For Cleaning Areas Of Higher Risk  Shared workstations/desks limited and clean before and after every use with sani-wipes including keyboards, mouse and telephone.	 Cleaning Of Premises Before Work Commences  Increased Cleaning Frequency of touch points to 3 times daily; 10:00, 13:00 & 16:00 2 x 5  High

Risk assessment for : Charter Vets (EX36 4EJ)

Hazard	Who could be harmed and how?	Existing controls	Risk rating (L x S)
<p>2. Hygiene Control Poor hand hygiene and respiratory hygiene control may lead to an increase in surface contamination.</p>	<p>All staff, Contractors, Members of the public Visitors How? Increased risk of surfaces becoming contaminated with pathogens including Covid-19 leading to spread of infection.</p>	<p> Avoid extended face to face conversations without use of face coverings/visors where 2 meter social distancing not possible</p> <p> Employees Advised To Wash Clothing After Work</p> <p> Increased Hand Washing Facilities Provided. Where this is not possible sanitiser will be provided.</p> <p> Increased Waste Management</p> <p> Signs And Posters In Use To Remind To Practise Good Hygiene</p>	<p>2 x 5</p> <p> 10</p> <p>High</p>
<p></p> <p>3. Social Distancing Guidelines Cannot Be Met -Activities, where social distancing cannot be followed in full, may lead to increased risk of the transmission of the virus due to being in close proximity. This includes entrances, exits and common areas as well as work activities.</p>	<p>All staff How? Being in close proximity may lead to increased risk of the spread of the Covid-19 virus.</p>	<p> 1.Increased Cleaning frequency of touch points to 3 times a day at 10:00, 13:00 & 16:00</p> <p> 2.Increased Handwashing Carried Out</p> <p> 3.Time Spent Within 2m To Be Kept To A Minimum</p> <p> 5.Employees To Avoid Face To Face Work Where Possible without face coverings or visors. Perspex barriers installed where this is difficult to maintain.</p> <p> 6. Site teams will be kept fixed where possible. Colleagues limited to one site per day. 1 Farm vet or 1 equine vet only in office area at anyone time (excluding clinical area).</p> <p> 8. Use of Personal Protective Equipment (PPE) specifically face coverings/visors to be worn at all times</p>	<p>5 x 5</p> <p> 25</p> <p>High</p>

Hazard	Who could be harmed and how?	Existing controls		Risk rating (L x S)
<p>7. Managing Customers, Visitors and Contractors Coming To Site. - Tradespeople, couriers, deliveries, contractors and other visitors such as customers attending site for work purposes.</p>	<p>All staff, Contractors Visitors How? Transmission of Covid-19 between visitors to site and employees.</p>	<p>Access To Welfare Facilities Controlled</p> <p> Good Hand Washing/Hygiene Procedures Observed By Employees</p> <p> Information Communicated To Visitors. Client visits to be risk assessed ahead of actual visits.</p> <p>Protective Interface Established - 2 meters distance & wear face coverings or visor</p> <p> Revised Pick Up and Drop Off Procedures</p>	<p>Contractors By Appointment Only & to be temperature check prior to entry to site.</p> <p> Increased Cleaning frequency of touch points to 3 times daily; 10:00, 13:00 & 16:00</p> <p>Managed Entry/Restrictions on Number of People Inside Premises</p> <p>Remote Communication Encouraged</p> <p> Sanitiser Available At Visitor Interfaces And Controlled Access For Deliveries</p>	<p>3 x 5</p> <p></p> <p>15</p> <p>High</p>
<p>8. Meetings People coming together in close proximity to attend meetings.</p>	<p>All staff, Contractors Visitors How? Increased risk of transmission of Covid 19</p>	<p>Meetings Carried Out Remotely Where Possible e.g. Virtual Zoom/Teams</p> <p> No Sharing Of Equipment Permitted</p> <p> Social Distancing To Be Maintained with face coverings/visors to be worn at all times</p>	<p> Meetings To Be Held In Well Ventilated Locations</p> <p> Sanitiser To Be Provided</p>	<p>2 x 5</p> <p></p> <p>10</p> <p>High</p>

Further control measures

None required

Operating procedures

In the context of COVID-19 this means working through these steps in order:

In every workplace, increasing the frequency of handwashing and surface cleaning.

Businesses and workplaces should make every reasonable effort to enable working from home as a first option.

Where working from home is not possible, workplaces should make every reasonable effort to comply with the social distancing guidelines set out by the government (keeping people 2m apart wherever possible).

Where the social distancing guidelines cannot be followed in full, in relation to a particular activity, businesses should consider whether that activity needs to continue for the business to operate and if so, take all the mitigating actions possible to reduce the risk of transmission between their staff.

Further mitigating actions include:

- Increasing the frequency of hand washing and surface cleaning.
- Keeping the activity time involved as short as possible.
- Using back-to-back or side-to-side working (rather than face-to-face) whenever possible.
- Reducing the number of people each person has contact with by using 'fixed teams or partnering' (so each person works with only a few others).
- Finally, if people must work face-to-face for a sustained period with more than a small group of fixed partners, then you will need to assess whether the activity can safely go ahead.
- No one is obliged to work in an unsafe work environment.

Risk rating explanation

Risk ratings are calculated by considering the likelihood of an event occurring along with the severity of the potential consequence should an accident occur. After considering existing control measures, values are assigned to the likelihood and severity from the scales below and these figures multiplied to established the risk rating.

What do your risk ratings mean?

- Risk is categorised as LOW: Look to reduce risk if practicable
- Risk has been categorised as MEDIUM: Begin to plan your action to reduce the risk immediately
- Risk has been categorised as HIGH: Immediate action required to reduce the risk
